

# AKSHAY SHIVAJI RATHOD

## DATA & AI ENGINEER

Thane, Maharashtra, India | rathod4520@gmail.com | +91 8454842474

GitHub: github.com/Akshay-Notfound | LinkedIn: linkedin.com/in/akshay-rathod-aaab52206

## PROFESSIONAL SUMMARY

Data & AI Engineer with a background in Artificial Intelligence & Machine Learning. Experienced in developing custom RAG pipelines, data ingestion architectures, analytical KPI dashboards, and full-stack software solutions. Proven track record in translating complex multi-format datasets into actionable intelligence and high-performance applications.

## EDUCATION

### Bachelor of Technology (B.Tech) - Artificial Intelligence & Machine Learning

Aug 2022 - May 2026

Dr. Babasaheb Ambedkar Technological University (DBATU), Maharashtra

## PROFESSIONAL EXPERIENCE

### Data Analyst & Data Scientist Intern

Feb 2026 - Present

ExcelR Edtech Pvt. Ltd. | Mumbai, Maharashtra

- Design and maintain analytical models and performance dashboards to track business KPIs and operations.
- Build end-to-end data pipelines and apply data science methods to extract actionable predictive insights.
- Evaluate strategy effectiveness, retention patterns, and resource allocation across business units.
- Translate statistical findings and technical metrics into clear executive narratives for stakeholders.

### Full Stack Developer Intern

Apr 2024 - Oct 2024

Humming Byte Technologies Pvt. Ltd. | Remote

- Developed full-stack web applications and backend microservices using the MEAN/MERN technology stack.
- Integrated high-throughput REST APIs with relational and NoSQL databases ensuring transactional integrity.
- Utilized Python, Java, and SQL for automated data processing, transformation routines, and service endpoints.

## KEY ENGINEERING PROJECTS

### GenAI RAG Data Analytics Agent

Python, Pandas, Scikit-learn, OpenAI API, Anthropic Claude, Pytest

- Custom RAG agent retrieving relevant schemas via TF-IDF & cosine similarity; translates NL to sandboxed Pandas AST.
- Features pluggable OpenAI GPT and Anthropic Claude providers, offline mock provider, and comprehensive Pytest validation.

### Customer Churn Analysis Pipeline

Python, SQL, SQLite, Pandas, Plotly, Seaborn

- Subscription data pipeline processing user activity to isolate cancellation trends and support retention initiatives.
- Conducted feature engineering including tenure days; built interactive Plotly visuals uncovering customer lifetime value drivers.

### DataMind AI - Automated BI Platform

Python, Pandas, FastAPI, Next.js, TypeScript

- Full-stack automated analytics platform calculating data quality scores, heuristic delimiter detection, and instant stats.

## TECHNICAL SKILLS

|                   |                                                                                                 |
|-------------------|-------------------------------------------------------------------------------------------------|
| GenAI & LLMs:     | RAG Pipelines, OpenAI API, Anthropic Claude API, Prompt Engineering, Vector Search, LLM Agents  |
| Data Engineering: | Python, SQL, ETL Workflows, Data Modeling, Google BigQuery, SQLite, JDBC, REST APIs             |
| Analytics & BI:   | Power BI, Tableau, Pandas, Plotly, Seaborn, Statistical EDA, Predictive Modeling, ROI Analytics |
| Cloud & Tools:    | Google Cloud Platform, AWS, Apache Spark, Hadoop, Kafka, Git, GitHub, Docker Fundamentals       |
| Software Eng:     | JavaScript, TypeScript, FastAPI, Next.js, MEAN/MERN, Java Fundamentals, DSA, Agile/Scrum        |

## CERTIFICATIONS & KEY ACHIEVEMENTS

- Google Cloud Certified Professional Data Engineer (Featured)
- Google Cloud: Create Your First Gemini Enterprise Application & Natural Language Sentiment API
- 1st Rank — 100 Days Hard Challenge (CodeXpress 2.0, AITR Indore) | National Hackathon Finalist (HackFusion 2.0)
- Top 20 Grand Finalist — Bid-2-Code (Innov8 '25, JECRC University) | McKinsey.org Forward Program
