

Akshay Shivaji Rathod

Thane, Maharashtra, India | +91 8454842474 | rathod4520@gmail.com | LinkedIn | GitHub

Summary

Data Analyst and Software Engineer building data pipelines, GenAI-powered analytics agents, and performance dashboards using Python, SQL, and cloud platforms. Hands-on experience with RAG agent design, LLM API integration (OpenAI, Anthropic), and foundational work with big data tools (Spark, Hadoop, Kafka) and AWS. Full-stack background (MEAN/MERN, REST APIs) with strong CS fundamentals in data structures, algorithms, and software engineering. Google Cloud certified in Professional Data Engineering.

Technical Skills

- **Programming:** Python, SQL, Java (fundamentals), JavaScript, Advanced Python, Data Structures & Algorithms
- **GenAI & LLMs:** Retrieval-Augmented Generation (RAG), OpenAI API, Anthropic Claude API, Prompt Engineering, Vector Search, LLM-based Agents
- **Data Engineering & Pipelines:** Data Pipeline Design, ETL, Data Modeling, Data Cleaning, REST APIs, JDBC, Google BigQuery, SQLite
- **Big Data (Foundational):** Apache Spark, Hadoop, Kafka
- **Cloud & Platforms:** AWS, Google Cloud Platform (Professional Data Engineer certified), Git, GitHub
- **Analytics & BI:** Tableau, Power BI, Plotly, Seaborn, Statistical EDA, Predictive Analytics, Performance Measurement, ROI Analysis
- **Software Engineering:** Full Stack Development (MEAN/MERN), Agile/Scrum, Code Reviews, Software Development Life Cycle

Work Experience

ExcelR Edtech Pvt. Ltd.

Feb 2026 – Present

Data Analyst and Data Scientist Intern

Mumbai, MH

- Design and maintain analytical models and performance dashboards to track KPIs, enabling data-driven, cross-functional decision-making.
- Build data pipelines and apply data science methodologies to extract actionable insights from execution data, evaluating strategy effectiveness and resource allocation.
- Translate complex technical data and statistical findings into clear narratives for non-technical stakeholders across a matrixed organization.

Humming Byte Technologies Pvt. Ltd.

Apr 2024 – Oct 2024

Full Stack Developer

Nashik, MH (Remote)

- Developed scalable backend and frontend applications using MEAN/MERN stack, integrating REST APIs with databases.
- Applied Python, Java, and SQL to build data pipelines and model complex datasets, strengthening backend and distributed-systems fundamentals.

Projects

GenAI RAG Data Analytics Agent

Python, Pandas, Scikit-learn, OpenAI, Anthropic, Pytest

GitHub

- Built a custom-orchestrated RAG agent that retrieves schema/context via TF-IDF + cosine similarity and translates natural language questions into executable, sandboxed Pandas expressions.
- Integrated pluggable LLM providers (OpenAI GPT, Anthropic Claude, offline mock) and validated retrieval, prompting, and execution with a Pytest suite.

Customer Churn Analysis

Python, SQL, SQLite, Pandas, Plotly, Seaborn

GitHub

- Built a data pipeline and analytical model using SQLite and Python to process subscription datasets and identify cancellation trends for retention strategy.
- Engineered features (e.g., tenure days) and advanced visualizations to quantify drivers of customer lifetime value and churn.

DataMind AI

Python, Pandas, FastAPI, Next.js, TypeScript

GitHub

- Built a full-stack automated data analysis platform (FastAPI backend, Next.js frontend) that processes raw CSV/Excel files to compute real-time data quality scores and statistics.
- Implemented robust data-parsing logic with delimiter detection to handle varied, large-scale datasets reliably.

Education

Dr. Babasaheb Ambedkar Technological University

Aug 2022 – May 2026

B.Tech, Artificial Intelligence and Machine Learning

Nanded, MH

Certifications

- Google Cloud: Professional Data Engineer; Create Your First Gemini Enterprise Application; Analyze Sentiment with Natural Language API
- McKinsey.org Forward Program; HP LIFE – Agile Project Management
- Coding Seekho Institute: Full Stack Development, Python Programming, Data Structures & Algorithms

Achievements

- 1st Rank – 100 Days Hard Challenge (CodeXpress 2.0), AITR Indore | National Hackathon Finalist – HackFusion 2.0, SGGs & IE&T, Nanded | Top 20 Grand Finalist (Innov8'25) – Bid-2-Code National Hackathon, JECRC University
